IT'S A WHOLE NEW ROLE

We welcomed Barbara Paulison as the Adult Medicine Pharmacy Coordinator at UF Health Shands in February of this year. Barbara received her Doctor of Pharmacy degree at Auburn University and completed her PGY1 Pharmacy Residency at the Malcom Randall VA Medical Center across the street. Her professional interests include psychiatric pharmacy, and her personal interests include spending time outdoors with her family and horse-back riding.

The pharmacy coordinators within the Shands Department of Pharmacy collaborate to ensure efficient utilization of resources and optimization of pharmacy operations. As a coordinator, some of Barbara's responsibilities include constructing the pharmacist schedule, managing the prepack area, and putting out any fires that pop up throughout the day. Barbara has been kept very busy these past few months with facilitating the transition to EPIC CNR, COVID response planning, and attending many, many meetings.

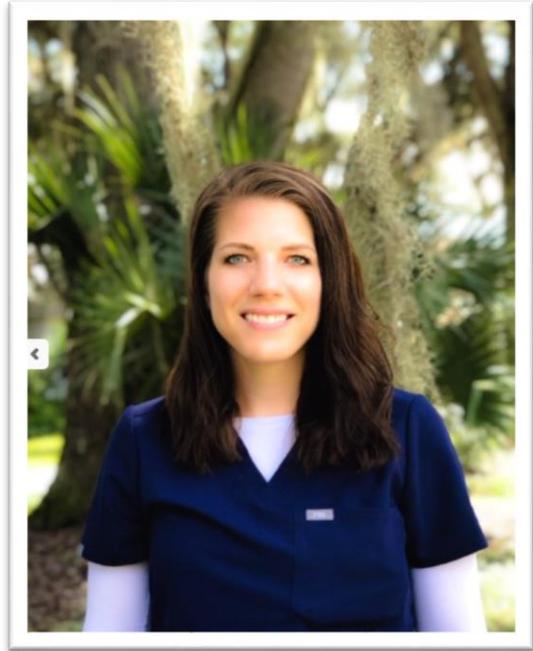

Barbara worked as an Adult Medicine Pharmacist at Shands before accepting her current role. This position has equipped her with firsthand experiences of the challenges that pharmacists face, and this knowledge will help her succeed as a coordinator. The transition to her new role has been smooth, which Barbara attributes to the strong relationships she has developed with her colleagues over the past two years. Although Barbara misses the hands-on patient care aspect of her previous position, she really enjoys the problem-solving and decision-making required as a coordinator. We appreciate all of Barbara's hard work and dedication!

DIRECTOR'S CORNER!

This Director's Corner focuses on our newest program director, Martina Holder. As the Education Coordinator of Pharmacy Services, Martina serves as the PGY1 Residency Program Director. Martina received her Doctor of Pharmacy from Purdue University College of Pharmacy and completed her pharmacy practice residency and a specialty residency in emergency medicine at the University of Kentucky Chandler Medical Center. She served as an emergency medicine clinical pharmacy specialist at UF Health Shands for 5 years before transitioning into her new role.

Martina is now completing her first year as PGY1 Residency Program Director (RPD). When asked her favorite part of her role as RPD, Martina states, "the best part is seeing the residents grow in every aspect throughout the year, as clinicians, and professionals, but also as people." She adds, "during orientation everyone is excited and a bit nervous. Then you see the dips throughout the year, and do your best to support them through the stressful times when they are feeling like the end will never come and they have so much on their plate. But at the end of the year, when residents see everything they've accomplished and how they've grown in every way. That's the stuff."

In addition to the residency aspect of her role as education coordinator, Martina is responsible for coordinating pharmacy student education and the technician trainee program. She enjoys the variety that this brings to her job and says it has helped her to grow as an educator. When asked about something that has surprised her in her new role, Martina responds, "how rewarding my involvement with the tech training program is." She has gotten to build better relationships with technicians in areas that she wasn't exposed to as an ED specialist and see some wonderful people begin their careers in the department. And, of course, she's found ways to make it fun with weekly Jeopardy study sessions!

Martina's leadership, dedication to her learners' growth, and sense of humor are very much appreciated by her trainees. Her advice for her residents as they finish their first year of residency is, "You have to give yourself grace, but never stop seeking knowledge and asking why! Also, you won't wake up knowing everything you need to know the day after PGY1!" Importantly, she adds, "And take a vacation if you can!"

"The best part is seeing the residents grow in every aspect throughout the year, as clinicians, and professionals, but also as people."

RALPHIE'S TAKE...

Let me preface by saying that PGY11 has been a whirlwind of emotions for me.

Although the days are long, the year was short. It feels like just yesterday I was learning all of your names and getting to know all of you. Which one of you is Alex again? All of you? Ok, sounds good. Now jumping 11 months later, all of you are going out and doing big things with your life.

Throughout this year, I've witnessed two of our fellow co-residents get married, and one of us got engaged. Although I wasn't invited to the festivities, I felt honored to be self-nominated as best-gorilla. Congrats to Victoria, Madi, and Kaitlyn! I wish you all nothing but the best in life and hope for a lifetime of happiness!

This year also brought in some *unprecedented* events. One day the office was packed with happy tailed residents, striving for success, sharing stories, and listening to John tell the same corny jokes over and over again. Those were the good times. And just like that, without any warning, everybody vanished, well, except for Victoria. There were no jokes, no stories, only Zoom meetings, and facemasks. April was sad with everybody gone, but now everybody is back and healthy. I hope everybody remains healthy and safe throughout these times.

It is now the end of my 11th year, and although I have seen many faces come and go, every one of you is unique. I am saddened to see the

departure of Victoria, Kaitlyn, Catherine, Madi, Megan, and John, but I am thrilled I get to spend another year with Alex, Shannon, and Haya! We are going to make this next year a great one! I can't wait to share the same office with you all again. Although some are staying, I do have some parting words for all my other co-residents who are leaving.

Victoria, thank you for being the best chief resident anyone could have ever asked for. You were very well organized and dedicated this position to helping the PGY1s, PGY2s, and PGY11s (me). You took that position and fulfilled it with great poise, and you always exceeded the requirements. For that, I thank you! Kaitlyn, your infectious bubbly attitude was still a joy to be around, and I wish you nothing but the best for your next endeavor in Kentucky! Although I did not see Catherine very much, she was always happy to be around, and I will miss you extensively! Good luck in New Jersey! To Haya, although you have graduated from the resident level to the preceptor level, you will always be a co-resident in my heart. To Madi, thank you for caring for me and sharing stories about Bella. I will miss you both. To Megan and John, I hope you both do great things as PGY2s and to continue your success. To the 2019-2020 class of UF Health Shands, I am so proud of all of you, and it has been an honor to share G-548 with such a great group of individuals.

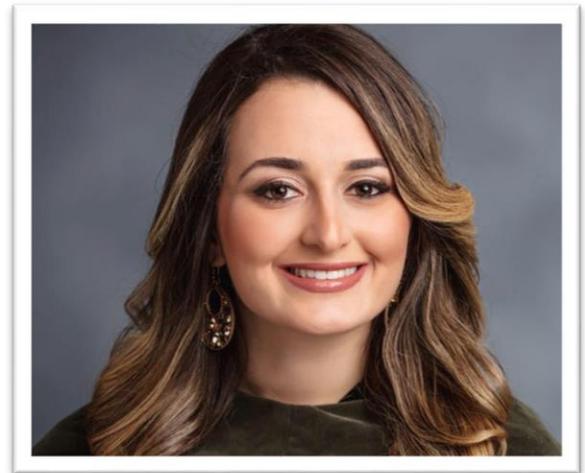

In closing, it's been yet another great year. I'm saddened to say goodbye to some of you, but excited to make new friends. Maybe 2020 will be the year I finally get sunglasses for all the bright residents we keep producing. Until then, G out!

Ralphie G. Rilla, PGY11

NEW PRACTITIONERS WELCOME!

We are pleased to welcome Haya Kaseer to her new role as a Clinical Pharmacy Specialist in the Medical ICU starting this summer. Haya obtained her Doctor of Pharmacy (PharmD) degree from the University of Florida College of Pharmacy in Gainesville, FL. She continued her training as a PGY1 resident at Mayo Clinic in Jacksonville, FL, and is now completing her PGY2 Critical Care residency here at UF Health Shands in Gainesville, FL. Throughout her residency experiences, Haya was actively involved in patient care, student and resident education, and clinical research.

Haya's specific area of interests are anticoagulation, infectious diseases, and shock management in the critically ill patient population. What most excites Haya about her new role is the opportunity to develop strong relationships with the multidisciplinary healthcare team and become more involved in education and research endeavors within the MICU and pharmacy department.

Other new practitioners joining us soon:

Marty Clemens has accepted the position of Coordinator, Pharmacy Resource Utilization/Pharmacy Stores. Marty is a graduate of the UF College of Pharmacy. In his career prior to joining the UF Health Pharmacy team, Marty served as a nuclear pharmacist and held multiple leadership positions at Cardinal Health Nuclear Pharmacy Services. In the last several months Marty has gained valuable experience as a Shands inpatient pharmacist.

Brooke Baggett will be joining us as the Oncology Pharmacist Coordinator in August. Brooke completed her PharmD at Lipscomb University and MS in Health-System Pharmacy Administration at the University of North Carolina. She is completing her Health-System Pharmacy Administration Residency at Moses Cone Health.

Ada Jutba will be joining us in the 2nd MICU position in August. Ada completed her PharmD at the University of Florida College of Pharmacy. She is completing her PGY-2 in critical care at Memorial Hermann-Texas Medical Center.

MEET THE INCOMING 2020-2021 RESIDENTS!

PGY1 Residency Class

Ansley Gayle is from Waverly Hall, GA and completed both her undergraduate degree and pharmacy school education at the University of Georgia. This upcoming year, Ansley is most looking forward to meeting everyone (and staying 6 feet away), trying all the amazing food in Gainesville (takeout only, of course), and continuing to pretend COVID-19 is the reason she never makes it to the gym. Although Ansley has been a Georgia Bulldog for a while, she is so excited for the opportunity to move a little further South and be part of the incoming PGY1 residency class at UF Health Shands Hospital!

Alexandra (Alex) Lehman was born and raised in Westfield, MA and moved to Florida in 2013. Alex attended the University of Florida for her undergraduate education and has been in Gainesville ever since, having just graduated from the University of Florida College of Pharmacy (Go Gators!). She is very excited to have a PGY1 residency at UF Health Shands and is looking forward to learning and gaining clinical pharmacy experience through elective and core rotations, specifically in pediatrics and infectious diseases.

Emma Lodi is originally from Milwaukee, WI and moved to Gainesville in 2016 to attend pharmacy school at the University of Florida. As a P4 student, she was given the opportunity to complete all of her APPE rotations at UF Health Shands Hospital. She has really enjoyed the teaching environment and the exceptional preceptors at UF Health Shands and is most looking forward to learning her own teaching style and developing her preceptor skills during her PGY1 residency year.

Duong Nguyen was born in Vietnam and raised in Boca Raton, FL. He completed his pharmacy education at the University of Florida College of Pharmacy. Duong is most looking forward to learning from everyone at UF Health Shands and making an impact as a PGY1 resident through patient care and projects. He is very excited for a memorable year with the team!

PGY2 Residency Class

Alexander (Alex) Branton is originally from St. Petersburg, FL and will be starting his PGY2 residency in Infectious Diseases. Alex is a graduate of the University of Florida College of Pharmacy, Gainesville Campus and is currently completing his PGY1 residency at the Bay Pines VA Healthcare System in Bay Pines, FL. He is excited to work with such an awesome residency class this upcoming year and become a part of the Shands Pharmily!

Mohamed Elmarakbi is originally from Queens, NY and will be starting his PGY2 residency in Critical Care at UF Health Shands Hospital. Mohamed completed his pharmacy education at the Arnold & Marie Schwartz College of Pharmacy at Long Island University (LIU) and is currently completing his PGY1 residency at ChristianaCare located in Newark, DE. Mohamed is extremely excited and looking forward to meeting and getting to know his fellow co-residents, the clinical pharmacists and clinical pharmacy specialists over the course of this coming residency year. He is also looking forward to working with everyone and making this a fun and memorable year!

Alexandra (Alex) George is originally from Cincinnati, OH and completed her pharmacy education at the University of South Carolina College of Pharmacy. She completed her PGY1 residency at UF Health Shands Hospital and is staying on to pursue a PGY2 residency in Pediatrics. She is most looking forward to getting to know and work more closely with the pediatric pharmacy group.

Shannon Lyons is from Lakeland, FL and received her Doctor of Pharmacy degree from the University of Florida College of Pharmacy. She completed her PGY1 residency at UF Health Shands Hospital and is staying on to pursue a PGY2 residency in Pediatrics. Shannon is most looking forward to jumping in with her favorite patient population, as well as getting to know the pediatric team and her new co-residents!

Kia McCormick is originally from LaGrange, GA and will be starting her PGY2 residency in Oncology at UF Health Shands Hospital. Kia received her Doctor of Pharmacy degree from the University of Georgia College of Pharmacy and is currently completing her PGY1 residency at Piedmont Columbus Regional Midtown in Columbus, GA. Kia is excited for her upcoming residency year. During this next year, she is especially looking forward to enhancing her clinical oncology knowledge base and serving as a patient advocate for those that suffer from malignancy.

NEW PRECEPTOR SPOTLIGHT

In the past year, UF Health Shands has been lucky enough to add two new preceptors to our residency program! Dr. Taylor Pasley (Heart/Lung Solid Organ Transplant Specialist) and Dr. Haili Gregory (Emergency Medicine Specialist) were interviewed for this new preceptor spotlight and we are so thankful for the many contributions they have already made towards our learning!

Dr. Haili Gregory

Dr. Taylor Pasley

Where are you from and where did you complete your training?

Taylor: "I am originally from St. Louis, Missouri. I completed pharmacy school at UNC-CH and completed my PGY1 at Carolinas Medical Center in Charlotte, NC. I completed my PGY2 in transplant at Tampa General Hospital, in Tampa, FL."

Haili: "Hometown is Lewiston, Utah. I trained at Intermountain healthcare for PGY1, and Medical University of South Carolina for PGY2."

What has been your favorite part of your new position so far?

Taylor: "Getting to know my patients well as I follow them from transplantation through discharge and during re-admissions."

Haili: "The variety of patients we see at Shands has been awesome and has given me so many opportunities to really fill my role as a specialist in the ED."

What are your current interests and goals?

Taylor: “My current interests include infectious complications in transplantation, and the future of belatacept in cardiothoracic transplantation. My goal is to complete a research project focusing on belatacept in lung transplantation looking primarily at renal sparing benefits and infectious complications.”

Haili: “My current interests and goals are toxicology, resuscitation, and research in emergency medicine with goals to educate various learners (in pharmacy and medicine), and work on building up my abilities to carry out meaningful research both in and out of the ED.”

What are you excited for next year?

Taylor: “Next year I am excited to get more precepting experience!”

Haili: “I’m looking forward to digging into more aspects of the research process here at Shands and working with our awesome teams to continue improving our practice!”

CURRENT RESIDENTS: OH, THE PLACES THEY’LL GO

John Boulos

While John has thoroughly enjoyed his time back in Florida at UF Health Shands, he is excited to be packing his bags and moving to Maryland to continue his residency training. John will be starting his PGY2 in Infectious Diseases at Johns Hopkins Hospital in a few short months and undoubtedly will go on to do great things there and continue to make us proud!

Megan Doherty

It’s a match! Megan will be moving back to Orlando to pursue a PGY2 in Pediatrics at Orlando Health Arnold Palmer Hospital for Children, which is where she first developed an interest in pediatric critical care after rounding in the pediatric ICU and pediatric cardiac ICU as a former APPE block student. She is grateful for the opportunity to work alongside some of her earliest mentors in pharmacy and is looking forward to being closer to family, friends, and of course, the local speedway.

Alex George

Alex will remain in Gainesville since she has signed on for a PGY2 in Pediatrics at UF Health Shands. She is delighted to continue her residency training at Shands and further explore her interest in pediatrics. Additionally, she has assumed the role of chief resident for the incoming 2020-2021 class, and though she has big shoes to fill, without a doubt she will make an excellent chief, role model, and confidant.

Madi Jones

Madi is headed out west to the Golden State! She is in the process of becoming a licensed pharmacist in the state of California and will be searching for clinical staffing positions out there after the big move. She is looking forward to starting the next chapter in her life with her husband Chris and their adorable beagle, Bella. Madi is going to be a rockstar pharmacist wherever she ends up, and we wish her all the luck in her future endeavors.

Shannon Lyons

Shannon, who is a Florida native, is staying put in Gainesville at UF Health Shands as a PGY2 Pediatrics resident. She has enjoyed her time as a former block student and PGY1 resident at UF Health. Thus, she is excited to stay on board for a third year and is eager to further explore her interest in pediatrics. The incoming class of residents are fortunate to have Shannon as a co-resident.

**Victoria Abbey**

Our current chief resident Victoria will continue to be a familiar face at Shands as a PRN staff pharmacist. She will split her time between Gainesville and Pensacola, while she and her husband Will figure out their next big move. Undeniably, Vicotira will be an asset to any pharmacy department she joins, and we wish her all the success in her job hunting.

Haya Kaseer

Haya has been promoted from PGY2 Critical Care resident to MICU specialist! Thus, she will remain in Gainesville at UF Health Shands close to family and friends. She is looking forward to transitioning into a new role as a clinical specialist and working alongside her former preceptors. She most certainly will be a great preceptor and valuable resource for the incoming residents as well.

Kaitlyn Kowalski

The University of Kentucky has hit the jackpot! Both Kaitlyn and her fiancé Evan, who is also a heme/onc pharmacist, have accepted jobs as clinical specialists at UK HealthCare and will be making the move to Lexington shortly. In addition to house hunting and assuming a new role as a Hematology/BMT specialist, she will be busy planning her wedding, which is slated for November of this year. It is shaping up to be a year full of accomplishments and milestones for Kaitlyn. Congrats!

Catherine Vu

Catherine is packing her bags and moving west to work as an Infectious Disease Clinical Pharmacist Specialist at University Medical Center in New Orleans. Although she misses her family back in the Northeast, she is excited to explore the NOLA culture, music, and food scene. She hopes to see her Shands Pharmily in NOLA for midyear! (if COVID allows)

"You have brains in your head. You have feet in your shoes. You can steer yourself any direction you choose"
– Dr. Seuss

PROFESSIONAL MEETINGS AND CONFERENCES

ASHP Midyear Clinical Meeting – December 2019; Las Vegas, NV

In December, the PGY1 and PGY2 residents attended the 54th annual ASHP Midyear Clinical Meeting in Las Vegas, Nevada. PGY1 Pharmacy, PGY2 Pediatric Pharmacy, and PGY2 Oncology Pharmacy residents presented results of their medication use evaluations and the PGY2 critical care resident presented her research protocol at the Vizient Pharmacy Network Resident Poster Session. The residents worked hard recruiting the incoming class of residents at the Residency Showcase and through the Personal Placement Service (PPS). Several residents participated in PPS themselves, seeking PGY2 positions in various specialties and job opportunities. However, it wasn't all work and no play! The residents enjoyed a family dinner with preceptors and pharmacy administrators in attendance at the meeting and enjoyed mingling with new and old UF friends at the UF Health and UF College of Pharmacy social reception.

Society of Critical Care Medicine (SCCM) Annual Congress – February 2020; Orlando, FL

In February, Dr. Haya Kaseer, our PGY2 Critical Care Pharmacy Resident, presented results of her PGY1 research project entitled "Evaluation of heparin versus bivalirudin anticoagulation for extracorporeal membrane oxygenation" at the Society of Critical Care Medicine (SCCM) Annual Congress in Orlando, Florida.

Hematology/Oncology Pharmacy Association (HOPA) Annual Meeting – March 2020; Tampa, FL

In March, Dr. Kaitlyn Kowalski, our PGY2 Oncology Pharmacy Resident, presented results of her PGY2 research project entitled "Evaluating the incidence of engraftment syndrome with different melphalan formulations in adult multiple myeloma and immunoglobulin light chain amyloidosis patients undergoing autologous hematopoietic stem cell transplantation" at the Hematology/Oncology Pharmacy Association (HOPA) Annual Meeting in Tampa, Florida.

Pediatric Pharmacy Association (PPA) Annual Meeting – May 2020; virtual

In May, Dr. Victoria Frame, our PGY2 Pediatric Pharmacy Resident, presented results of her PGY2 research project entitled "Impact of enteral nutrition during intravenous vasopressor therapy in critically ill neonates" at the Pediatric Pharmacy Association (PPA) Virtual Annual Meeting.

Society for Academic Emergency Medicine (SAEM) Annual Meeting – May 2020; virtual

In May, Dr. Haya Kaseer, our PGY2 Critical Care Pharmacy Resident, presented results of her PGY2 research project entitled "Comparison of fluid resuscitation weight-based dosing strategies in obese patients with severe sepsis" at the Society for Academic Emergency Medicine (SAEM) Virtual Annual Meeting.

Alternative Meetings/Presentations – May/June 2020

Due to the cancellation of the Florida Residency Conference (FRC) and Making a Difference in Infectious Diseases (MAD-ID) Annual Conference, our PGY1 Pharmacy Residents and PGY2 Infectious Diseases Pharmacy Resident presented the results of their research projects locally in May/June to an interdisciplinary group. These residents and their project titles are listed below.

- Dr. Alex George, PGY1 Pharmacy Resident: "Evaluation of the pediatric meds-to-beds program at an academic medical center"
- Dr. Shannon Lyons, PGY1 Pharmacy Resident: "Implementation of barcode technology into non-sterile compounding and prepackaging in an academic medical center"
- Dr. Madison Jones, PGY1 Pharmacy Resident: "The impact of the addition of a clinical pharmacist to a multidisciplinary team in a coronary care unit"
- Dr. Megan Doherty, PGY1 Pharmacy Resident: "Role of melatonin in reduction of antipsychotic prescribing for delirium in the surgical intensive care unit"
- Dr. John Boulos, PGY1 Pharmacy Resident: "Measuring the impact of allowing 72 hours of empiric linezolid on ICU consumption of intravenous gram-positive antibiotics"
- Dr. Catherine Vu, PGY2 Infectious Diseases Pharmacy Resident: "Evaluation of carbapenems vs non-carbapenem therapy for the treatment of ESBL-producing Enterobacteriaceae in bloodstream infections"

PROFESSIONAL UPDATES

Robert Crawford III is teaching guest lectures for pharmacy school at High Point University.

Ji Lee has a new position at CMS (Centers for Medicare and Medicaid Services) in Baltimore, MD.

Joelle Nelson elected member at large for American Society of Transplantation's Transplant Pharmacy Community of Practice June 2019 through May 2021.

Samantha Brokenshire accepted a job at Texas Children's Hospital in pediatric nephrology/kidney transplant in Houston.

Marlena Fox has accepted the position of Florida Residency Chair 2020 – 2021 and will be on the SCCM Florida Chapter Board of Directors 2020 – 2023.

Luke Orth has accepted a position as Assistant Professor at the University of Colorado Skaggs School of Pharmacy in Aurora, Colorado. He and his wife moved to Denver, where Samantha is also working as a pharmacist in primary care at the VA Medical Center (she did PGY1 and PGY2 at the Gainesville VA).

GROWING PHARMILY

Robert Crawford III is planning his wedding to fiancé Emily Jobe for September.

Joelle Nelson is expecting baby boy #2 in June of 2020.

Kaitlyn Kowalski got engaged and is moving to Lexington, KY with fiancé Evan and dog Millie.
